DIVISION OF GENETICS

(PEDIATRIC & ADULT)

ABOUT US

The Division of Genetics is part of UBMD Pediatrics and is affiliated with the Jacobs School of Medicine and Biomedical Sciences at the University at Buffalo.

Our mission at UBMD Pediatrics is to be the premier care provider for infants, children, adolescents, and young adults in Western New York and beyond by:

- Delivering excellent family-centered medical care with compassion and advocacy
- Pursuing innovation & research that enable the treatment and prevention of pediatric diseases
- Teaching health care professionals & students

CARE TEAM

Your Genetics care team will include attending physicians, a nurse practitioner, genetic counselors, and nutritionists along with the clinical staff (i.e. nurses, medical assistants).

PHYSICIANS (certified by the American Board of Medical Genetics)

- Evaluate, diagnose and manage birth defects, developmental disabilities and autism
- Evaluate, diagnose and manage inborn errors of metabolism, including enzyme replacement therapy

GENETIC COUNSELORS (certified by the American Board of Genetic Counselors)

- Perform preconception, prenatal, pediatric, and adult genetic counseling
- Coordinate DNA testing for genetic disorders
- Familial cancer risk assessment

SPECIALIZED CARE

We provide diagnostic, management, and genetic counseling services to pediatric and adult patients.

Clinical care is organized along two lines: birth defects and genetic counseling as well as inherited metabolic disorders.

Our Division also includes an Inherited Diseases Specialty Center designated by the NYS Department of Health, as well as a Krabbe Disease Screening Unit.

Our Metabolism Program provides enzyme replacement therapy for Gaucher disease, Fabry disease and mucopolysaccharidosis type 1 (Hurler syndrome, Scheie syndrome).

**TO SCHEDULE AN APPOINTMENT,
