General Summary

Perform professional nursing, consultation, and educational services for persons with diabetes, and provides community health education. Develop curriculum on health, including research and production and act as a health care consultant by providing information on the management of diabetes for patients.

Essential Job Responsibilities

- Provide education related to diabetes and the disease process; medication, diet and nutritional monitoring; foot care, prevention and care of complications; blood glucose monitoring and the techniques of self-monitoring and injection
- Develop and implement educational programs for diabetic staff, patients, and families
- Advise patients as to long-term complications
- Provide clinical resource and consultation to staff and physicians
- Assist patients in monitoring blood glucose for the purpose of medication control and adjustment for both insulin and noninsulin dependent diabetics
- Assess, monitor and implement treatment plans for patients at various stages of the disease. The focus is on prevention of complications and management of stable diabetes
- Provide ongoing assessment and recommendations to the treatment team and patient/family for adjustments in the plan of care as required
- Document assessments, interventions and plans including recommendations and goals, progress notes and discharge summaries
- Coordinate community outreach education classes to include the schools

Qualifications

- Graduate of an accredited baccalaureate nursing program.
- NY State RN License
- 1-3 years of experience in a healthcare setting, preferably in diabetes prevention or health education program.
- Basic Life Support (BLD) Certification
- Certified Diabetes Educator (CDE) or the ability to obtain certificate within 3 years of employment
- Exceptional communication skills and a professional demeanor.
- Ability to multitask and operate under pressure with precision and empathy.
- Commitment to cultural sensitivity and confidentiality in handling patient information.
