ABOUT US

The UBMD Pediatrics Sleep Center is part of the Division of Pulmonology within UBMD Pediatrics and is affiliated with the Jacobs School of Medicine and Biomedical Sciences at the University at Buffalo. Our Center is comprised of a pediatric sleep clinic located at Conventus and a pediatric sleep lab located at Oishei Children's Hospital.

Our mission at UBMD Pediatrics is to be the premier care provider for infants, children, adolescents, and young adults in Western New York and beyond by:

- Delivering excellent family-centered medical care with compassion and advocacy
- Pursuing innovation & research that enable the treatment and prevention of pediatric diseases
- Teaching health care professionals & students

CARE TEAM

Your Sleep care team will include attending physicians, sleep technologists and respiratory therapists along with the clinical staff (i.e. nurses, medical assistants).

**TO SCHEDULE AN APPOINTMENT,
PLEASE CALL 716.323.0370.**

SPECIALIZED CARE

We provide a comprehensive approach to the diagnosis and treatment of pediatric sleep disorders. We offer exemplary, family-centered care to our patients that promotes wellness and quality of life while also participating in research to improve care and treatment. We have expertise in the evaluation and management of pediatric sleep diseases.

WE TREAT

- Obstructive sleep apnea
- Central sleep apnea and sleep-related hypoventilation disorders
- Snoring
- Narcolepsy
- Kleine-Levin Syndrome
- Insomnia
- Hypersomnia
- Parasomnia
- Sleep-related movement disorders
- Circadian rhythm
- Sleep-wake disorders

ASSISTED BREATHING CENTER

We evaluate and manage children who need mechanical ventilation, BiPAP for neuromuscular weakness or sleep-related hypoventilation with or without oxygen supplementation.
